## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 15, 2003 has been entered.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 1 and 2 recite a "water soluble ethylene-acryl resin containing 50-80% of ethylene and 50-20% of acryl resin and having a molecular weight of 20,000 to 50,000". It is unclear, from both the claims and the Specification, what is meant by "50-80% of ethylene and 50-20% of acryl resin" and "a molecular weight of 20,000 to 50,000. Are the percentages weight percentages or volume percentages? What kind of molecular weight is recited? Is it a weight average molecular weight or a number average molecular weight? Appropriate amendment or clarification is required.

***Response to Arguments***

3. Applicant's arguments with respect to the rejection of claims 1-4 Claims 1-4 under 35 U.S.C. 103(a) as being unpatentable over Lee et al. (WO 00/32843) in view of Dickie et al. (US 3,987,127) have been fully considered and are persuasive. Applicants priority claim to Korean Application Serial No. KR 1999/50110, filed on November 12, 1999, has been perfected. The certified priority document and an English language translation has been received in the application and the Examiner has established that the priority document satisfies the enablement and description requirements of 35 U.S.C. 112, first paragraph. Furthermore, Applicants have complied with the requirements of 37 CFR 1.63(c), since an application data sheet has been filed acknowledging the filing of any foreign application. Hence, claims 1-4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
